**New Business:**

**Develop a strategy for increasing viewership on our community channels:**

- The Committee discussed meeting with Historical Commission Chair, Gary Kangas to discuss filming possibilities. The Board agrees the information Gary has is valuable as well as irreplaceable and for that reason would like to share it with residents. Tom and Brittany will contact Gary to schedule a meeting to discuss filming opportunities.
- Tom Robinson, local resident presented an idea he had to the Committee to increase viewership. Tom suggested the recording of all public meetings. Tom stated that only some of the meetings are being recorded and questioned what it would take to televise the ones that are currently not. The Board will determine how many meetings are held and what the cost would be to televise.
