

# TRANSPORTATION OPEN FORUM

**When: February 16, 10:00-11:30 AM**

**Where: [Zoom](#)**

This interactive focus group will collect your input about what transportation investments are most important to your community. Your feedback will inform the statewide and regional transportation plans. We will also be gauging interest in the possibility of creating a Transportation Management Association for our region!

## Why is this so important?

- **New funding is available** - tell the new administration what transportation and infrastructure investments are most important to you!
- **This is the roadmap for the future** - only projects that make it onto the roadmap have a good chance of being slated for implementation!
- **It's time to think BIG** - North Central Mass needs and deserves first rate transportation options: on-demand ride services, walkable and bikeable downtowns, and greener transit.
- **It's possible** - to reduce isolation, connect people with housing, healthcare, education, jobs, food, and a better quality of life!

*To register for the meeting, please use the link above or the QR code below.*

## Agenda

**10:00-11:00 AM** – MDOT & MRPC presentation and guided discussion on the Long-Range Transportation Plan

**11:00-11:30 AM** – Discussion on creating a Transportation Management Plan (TMA)

**11:30 AM** – Wrap up & next steps
