Proposed Additional Road Maintenance (FY20-24)

The Board of Selectmen in May 2019 was presented with a five-year road maintenance plan. This plan relied on Chapter 90 money received from the state (an average of \$350,000 annually) and additional money allocated through an annual free cash appropriation.

[FY20-24 Hubbardston Road Maintenance Plan](#)

Town Meeting Warrant Article 22 recommends funding a road stabilization account through an override, adding \$350,000 per year to a Road Repair Stabilization Fund. This would essentially double the average Chapter 90 road repair money Hubbardston receives annually. Such additional funding would allow the Department of Public Works to add the following roads and their associated costs to the five-year road maintenance plan. Please note this plan and list would be combined with the existing plan to efficiently use town resources and is dependent on all current funding remaining the same. This is NOT listed in priority order.

| | |
|--|-----------------------|
| Dogwood North | \$175,000 |
| Geordie Lane | \$175,000 |
| Laurel Street | \$75,500 |
| Dogwood South | \$95,000 |
| New Templeton Road (First Pond to Cross) | \$240,000 |
| High Street | \$200,000 |
| Mayo Road (Pole #11 to end) | \$40,000 |
| Williamsville Cut Off | \$65,000 |
| Natty Pond Drive | \$90,000 |
| Bickford Pond Road | \$33,000 |
| Brookside Drive | \$20,000 |
| Tahanto Road | \$15,000 |
| Forest Drive | \$16,000 |
| Old Princeton Cut-Off | \$68,000 |
| Ed Clark (short half) | \$17,000 |
| Mt. Jefferson Road (Dirt Section to Templeton) | \$80,000 |
| Old Colony Road | \$95,000 |
| Old Princeton Road | \$227,500 |
| Lowell Street | \$23,000 |
| Total | \$1.75 million |

Overall plan assumes \$350k per year for road maintenance override plus a continuation of existing Chapter 90 allocation average
